

# DUST HOOD SUPPORT ARM

## DBGULP-ARM

### INSTRUCTIONS

*Dust hood, hose and clamp  
sold separately*

#### WHAT'S IN THE BOX:

- A. Swing/support bracket
- B. Hood retaining clamp
- C. Upright support lever
- D. Upright support bar
- E. Hood support bar

1. Thread the hood support clamp through the slots in the hood support bar bracket.  
**Fig. 1**

Fig. 1

2. Insert the upright support bar through the hood support bar and tighten with the lever lock.  
**Fig. 2**

Fig. 2

3. Insert the upright support bar into the long slot of the swing/support bracket. Ensure the notched end of the upright support is engaged into the swing/support bracket.  
**Fig. 3**

Fig. 3

4. Attach the swing support bracket to the lathe bed by removing the heavy round key positioned under the lathe bed.

5. Attach the hood with the hood retaining clamp.  
**Fig. 4**

6. Attach the hose to the dust hood with a standard hose clamp.  
(Hood, hose and clamp not included.)
